ACADEMIC PROJECT

SIGN LANGUAGE TO TEXT & VOICE CONVERSION
Technology: Python, Open CV

Aim is to create a system that can convert Sign Language into text than into Speech. It is used to communicate between deaf & disabled people. The main drawback and advantage about this project is you need to learn Sign Language to run this project. I Developed this as Final Year Project.

STUDENT FEEDBACK SYSTEM
Technology: Java, MySQL

Aim is to make Student Feedback System helps educational Institution especially college in various ways, Such as Storing data, Maintaining Student Feedback, analyzing administrative, academic data, improving communication. I Developed this as FirstYear Project.
